

Contents

Review

- 1-21 **González, D.** Molecular markers for comparative studies of variation in ecology and systematics

Contributions

Aeromycology

- 22-28 **González-Morán, E., L. Mesa, S. Rodríguez-Valero, J. Navarro & G. León.** Gum exudates substrate for the isolation of atmospheric fungi

Physiology

- 29-32 **Mata, G. & J. M. Savoie.** Screening of *Lentinula edodes* strains by laccase induction and resistance to *Trichoderma* sp.
33-36 **Rivera, F., M. Valdés & T. Mier.** Preliminary study on yield and storage of fungal propagules from *Verticillium lecanii* (Zimmermann) Viègas

Taxonomy

- 37-40 **Chamizo, A., R. Ferrera-Cerrato & L. Varela.** Species identification of a *Glomus* consortium
41-52 **Esqueda-Valle, M., E. Pérez-Silva, T. Herrera & G. Moreno.** Additions to the knowledge of the Gasteromycetes of Sonora, Mexico
53-55 **Romero, A. & G. Carrión.** First record of *Dietelia portoricensis* (Uredinales) from Mexico
56-60 **Romero, A. & G. Carrión.** New records of host plants of *Plasmopara halstedii* (Peronosporales; Peronosporaceae) from Mexico
61-63 **Villarruel-Ordaz, J. L. & J. Cifuentes.** First record of *Collybia cookei* (Tricholomataceae, Agaricales) from Mexico

Short communications

- 64-66 **Chacón, S.** Additions to the knowledge of the Diatrypales (Ascomycotina) from Mexico
67-69 **Rodríguez, R., C. Soto-Velazco & L. Villaseñor.** The use of leaves waste from public parks and lawns for the culture of *Pleurotus* spp.
